Refund Policy

Heartland Pathology makes every attempt to return any overpayment to our patients or their insurance company. The Credit Balance report is worked on a timely basis, and the refund list is sent to the accountant to be processed monthly.

Checks are then mailed to appropriate person or company as soon as possible. Credit card overpayments are generally credited back to same card.

If you are owed a refund and have not received within 45 days of over payment - please contact our Billing Office to verify over payment and provide your current address.
